

New Hampshire Child Advocacy Network Application for Advisor Status

About the New Hampshire Child Advocacy Network

NH CAN, founded by the Children's Alliance of New Hampshire in June 1999, is a network of child-serving organizations and advocacy groups determined to drive governmental policy, change budget priorities, and inspire community action to improve the health and well-being of all children and youth.

NH CAN Core Principles:

- ◆ Every child in New Hampshire should have a meaningful opportunity to develop to his or her full potential.
- ◆ Parents, families, communities, all levels of government, and the business sector have a shared obligation to assure this meaningful opportunity for all children.
- ◆ Supporting children means supporting families.
- ◆ Prevention is the most effective intervention.
- ◆ Any and all interventions must respect diverse racial, cultural, and economic differences.

NH CAN Advisors

The New Hampshire Child Advocacy Network welcomes the wisdom and experience of advisors from diverse backgrounds and experiences, and who actively work for the network's core principles. Advisory status is limited to government agencies, legislators, and other selected state leaders.

Advisors are invited to participate in the annual spring and fall workgroups, to participate in the creation of the yearly *Priorities for New Hampshire's Children*, and to work with the NH CAN partnership to advocate on behalf of New Hampshire's children.

NH CAN Advisors are committed to working for the health and well being of New Hampshire's children, and to supporting the mission and principles of the New Hampshire Child Advocacy Network.
